

Digital Libraries Division: Digital Curation Graduate Services Assistant

Number of positions available: 1

About the Program

The UNT Libraries offer full-time graduate students professional experience through their Graduate Services Assistantships and Research Assistantships (<https://www.library.unt.edu/jobs/gla-gra>). These positions provide tuition benefit program hours and are benefits eligible during the fall/spring semester, but summer positions are paid hourly with limited benefits eligibility. For grant-funded assistantships, benefits vary according to the grant. See full details here. (<https://www.library.unt.edu/jobs/gla-gra>)

Department Overview

The Digital Curation Unit actively manages digital resources throughout their lifecycle. We are passionate about open access and digital preservation.

Our core activities include:

- Building and maintaining the institutional repository UNT Scholarly Works
- Providing access to UNT Theses and Dissertations (ETDs)
- Showcasing a suite of related collections highlighting the scholarly and creative work of the UNT community

To enhance discovery and ensure long-term access to digital resources, we:

- Promote metadata consistency
- Ensure compliance with national and international digital library standards
- Participate in professional societies and collaborate with other institutions
- Generate tools, procedures, and documents necessary for effective digital lifecycle management

Position Description

In this position, you will assist in processing and describing scholarly output from UNT faculty, staff, and students. This includes published and unpublished documents, presentations, and conference materials to list just a small portion of the types of items you'll experience. These resources will be loaded into the UNT Scholarly Works repository or other related collections in the [UNT Digital Library](#).

Position Responsibilities

- Monitor repository email for content submissions
- Track submissions to ensure all workflows are correctly completed
- Process and prepare digital files for ingest into the digital repository infrastructure
- Create metadata (describe content and physical attributes of digital library objects)
- Proofread, compare, and correct metadata records to ensure that they are consistent and conform to our [metadata guidelines](#)
- Add names to our Name app (internal authority files)
- Following and developing stable workflows and consistent practices for different item types (presentations, articles, videos, etc.)
- Other duties as assigned

Hours and Location

Hours: 20 hours per week

Students can set their own schedule but are expected to work during the hours of Monday-Friday 8 am – 6 pm. The Digital Curation Unit is located in the Library Annex.

Duration

Spring 2023 (January 2, 2023-May 31, 2023). Dependent upon funding summer employment may also be available.

Minimum Qualifications

You must be a full-time graduate student. You should also possess these qualifications:

- Demonstrate comfort with technology
- Interest in digital libraries and metadata
- Excellent writing skills—including the ability to analyze content, compose concise descriptions, and proofread
- Thorough understanding of English grammar and spelling
- Ability to perform repetitive tasks and produce high quality output
- Ability to work systematically and methodically through workflows
- Ability to follow written and oral instructions
- Strong organizational skills
- Familiarity with Windows operating systems

Preferred Qualifications

- Experience or coursework in metadata, cataloging, or information organization
- Major in information science

Pay Rate

Pay rate will depend on student's progression in their graduate program.

- Level 1- \$1,322.22/month, \$11,900/9 months
- Level 2- \$1,555.56/month, \$14,000/9 months
