## Foreword

This publication presents the 15th annual survey of public attitudes toward government and taxes conducted for the Advisory Commission on Intergovernmental Relations (ACIR).

The Gallup Organization has conducted the polls since 1983 using the Gallup Personal Omnibus. Every effort was made to ensure comparability with the previous surveys conducted by Opinion Research Corporation of Princeton, NJ. A description of the poll appears on p . 6. Users should note that for 1986, the sample size has been reduced to 1,004 , and the sampling tolerances are slightly larger than in previous years.

This year ACIR asked seven questions. This publication presents both the current results and cumulative record since 1982. It contains an appendix which lists all the questions which have been asked since 1972 and the tables in which detailed data on responses can be found. Data on questions asked in the 1972-81 surveys may be obtained by requesting copies of the 1983 or 1984 reports (S-12 and S-13) which present the data in Appendix III.

Susannah E. Calkins, senior analyst, prepared this study with the assistance of Karen Kirkwood. Members of the ACIR staff participated in developing the questions and in reviewing the results.

All interpretations of the data are those of the ACIR staff.

## The 1986 Survey HIGHLIGHTS

## The Federal Income Tax Chosen as the Worst Tax for the Eighth Straight Year

For the eighth straight year, the federal income tax has received the most votes as the worst taxthe least fair-from respondents polled by the Gallup Organization for the Advisory Commission on Intergovernmental Relations' 15th annual poll on changing public attitudes on government and taxes. Between 1973 and 1978, it was usually a toss-up between the local property tax and the federal income tax as to which levy would end up occupying the cellar position in public esteem.

It is not surprising that the public's view of the federal income tax has remained unchanged since 1979. During the period, inflation pushed
many taxpayers into tax brackets that would have been inconceivable to them a decade earlier. Criticism of the tax has remained widespread. During the past year, public attention has been focused on the federal income tax as the President's tax reform proposals have been actively debated in the Congress and in the press.

The gap between public disapproval of the federal income tax and the local property tax, which reached its high point of 14 percentage points in 1985, narrowed in 1986; there are now only 9 percentage points between the two. Most of the difference is accounted for by increasing disapproval of the local property tax.

There are striking differences in the way the various regions view the federal income tax and the local property tax.

Text Table 1
Which do you think is the worst tax-that is, the least fair?
Percent of U.S. Public

|  | $\begin{gathered} \text { May } \\ 1986 \end{gathered}$ | $\begin{gathered} \text { May } \\ 1985 \end{gathered}$ | $\begin{aligned} & \text { May } \\ & 1984 \end{aligned}$ | $\begin{gathered} \text { May } \\ 1983 \end{gathered}$ | $\begin{aligned} & \text { May } \\ & 1982 \end{aligned}$ | Sept. <br> 1981 | $\begin{aligned} & \text { May } \\ & 1980 \end{aligned}$ | $\begin{gathered} \text { May } \\ 1979 \end{gathered}$ | $\begin{aligned} & \text { May } \\ & 1978 \end{aligned}$ | $\begin{aligned} & \text { May } \\ & 1977 \end{aligned}$ | $\begin{aligned} & \text { May } \\ & 1975 \end{aligned}$ | $\begin{aligned} & \text { April } \\ & 1974 \end{aligned}$ | $\begin{gathered} \text { May } \\ 1973 \end{gathered}$ |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Federal Income Tax | 37 | 38 | 36 | 35 | 36 | 36 | 36 | 37 | 30 | 28 | 28 | 30 | 30 |
| State Income Tax | 8 | 10 | 10 | 11 | 11 | 9 | 10 | 8 | 11 | 11 | 11 | 10 | 10 |

| Don't Know | 10 | 12 | 10 | 15 | 9 | 9 | 10 | 13 | 10 | 11 | 10 | 14 | 11 |

Detailed data appear in Appendix II, Tables 4, 5, and 6, pp. 19-23.

## Text Table 2

## Which do you think is the worst tax-that is, the least fair? 1986 Regional comparisons

Percent of U.S. Public<br>Federal Income Tax Local Property Tax

| United States | 37 | 28 |
| :--- | :--- | :--- |
| Northeast | 31 | 27 |
| North-Central | 37 | 34 |
| South | 36 | 28 |
| West | 44 | 22 |

Detailed data appear in Appendix II, Table 4, p. 19.

As the table indicates, the West has the lowest disapproval rating for the local property tax at $22 \%$ (probably related to the effect of California's Prop. 13 and its clones in holding down local property taxes in that region), and the highest disapproval of the federal income tax at 44\%; there is a 22 percentage point gap between the two. The largest spread for any other region is the 8 percentage points in the South separating the local property tax (at $28 \%$ ) and the federal income tax (at 36\%).

## Should Single Parents Receiving Welfare Be Required to Work?

A majority of the United States public believe that single parents who receive welfare should be required to work in a government program if the children can be placed in affordable day care or are in school. When asked whether single parents receiving welfare should be required to work in a government program in order to continue receiving their welfare payments, $13 \%$ said they should
not, compared to $32 \%$ of those polled who believed that they should. A considerably larger number of respondents ( $51 \%$ ) believed that single parents should be required to work in a government program only if the children can be placed in affordable day care or are in school. The number of persons with opinions on the subject ( $96 \%$ ) was unusually high for the ACIR poll; only $4 \%$ did not answer or had no opinion on the subject.

## Government Services and Taxes

Since 1979, there has been a slow but steady decline in the number of respondents who favor cutbacks in both government services and taxesfrom $39 \%$ in 1979 to $31 \%$ in 1986 . The 1986 responses also reflected an increased level of satisfaction with the current level of government services and taxes; there was a particularly sharp increase between 1982 and 1986-from $42 \%$ in 1982 to $51 \%$ in 1986. (Text Table 4.)
When regional data are examined, it appears that the level of satisfaction with the current level of government is highest in the Northeast (58\%)

Text Table 3

# Should single parents receiving welfare be required to work in a government program in order to continue receiving payments? 

|  | Percent of U.S. Public |
| :--- | :---: |
|  | 1986 |
| Yes | 32 |
| Only if the children can be placed in <br> affordable day care or are in school | 51 |
| No | 13 |
| Don't know | 4 |

Detailed data appear in Appendix II, Table 15, p. 20.

## Text Table 4

How do you feel about government services and taxes?

|  | Percent of U.S. Public |  |  |  |
| :--- | :---: | :---: | :---: | :---: |
|  | $\mathbf{1 9 8 6}$ | $\mathbf{1 9 8 2}$ | $\mathbf{1 9 8 0}$ | $\mathbf{1 9 7 9}$ |
| Decrease services and taxes <br> Keep services and taxes <br> about where they are | 31 | 36 | 38 | 39 |
| Increase services and taxes <br> Don't know | 51 | 42 | 45 | 46 |

Detailed data appear in Appendix II, Table 10, p. 27 and Table 11, p. 28. Table 11 also shows data for 1975-77.
and lowest in the West (44\%). The West gives higher support for increasing services and taxes (14\%) than the U.S. average.

## Rating Government Power

Just as an increasing number of respondents are moving away from the view that government services should be cut and taxes decreased, fewer respondents now believe that the federal government has too much power. In 1978 and 1982, $38 \%$ of the respondents felt that the federal government had too much power; by 1986 that number had dropped to $28 \%$. At the same time those believing that the federal government should use its powers more vigorously has increased from a low of $30 \%$ in 1982 to $41 \%$ in 1986.

When regional changes between 1982 and 1986 are examined, there is a sharp drop in the Northeast ( 21 percentage points) in the belief that the federal government has too much power, and a drop of about 10 percentage points in the NorthCentral and the West. Similarly, there have been impressive increases between 1982 and 1986 in
the percentage of those believing that the federal government should use its powers more vigorously: 15 percentage points in the Northeast, 16 percentage points in the North-Central, and 13 percentage points in the West.

## Rating Governments

Since 1972 the ACIR poll has asked the public, "From which level of government do you feel you get the most for your money?" This year, as last year and in 1983, the percentages choosing the federal government and local government were about equal: $33 \%$ for the federal government and $32 \%$ for local government. State government trailed with $22 \%$ of the vote, about what it had received in 1985 and 1983. (Text Table 6.)

When the demographic detail is examined, it appears that the strongest support for the federal government comes from those over 65 years old ( $43 \%$ ) and the lowest level from college graduates (24\%) and those with incomes between $\$ 25,000$

## Text Table 5

Which of these statements comes closest to your view about government power?

|  | Percent of U.S. Public |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  | 1986 | 1984 | 1982 | 1978 |
| Federal government has too much power | 28 | 35 | 38 | 38 |
| Federal government is using about the right amount of power | 24 | 25 | 18 | 18 |
| Federal government should use its powers more vigorously | 41 | 34 | 30 | 36 |
| Don't know | 7 | 6 | 14 | 8 |

From which level of government do you feel you get the most for your moneyfederal, state or local?

and $\$ 29,900$ ( $24 \%$ ). State government drew its strongest support from those aged $18-24$ ( $29 \%$ ) and the lowest from those over 65 years old ( $16 \%$ ). Local government drew high levels of support from college graduates ( $43 \%$ ), those in the $\$ 25,000-29,900$ income group ( $46 \%$ ) and over $\$ 40,000$ income group ( $42 \%$ ), as well as from those classified in the professional, managerial and clerical occupational groups (42\%).
There are distinct regional patterns in the preferences for levels of government: the Northeast gives higher than average votes to both the federal government ( $37 \%$ ) and state governments $(26 \%)$, and lower than average to local governments ( $25 \%$ ). The North-Central region gives a lower than average vote to the federal government ( $28 \%$ ) and a higher than average vote to local government ( $39 \%$ ). The South also shows a marked preference for local government ( $35 \%$ ) over state government ( $18 \%$ ). The West gives approximately equal ratings to state government ( $27 \%$ ) and to local government ( $29 \%$ ).

## Cutting the Federal Budget

There is no indication of any significant change in public opinion since 1984 on ways to cut the federal budget-as in 1984, a majority opted for cuts in defense spending (over $50 \%$ in both years), and only $2 \%$ chose the option of cutting Social Security and Medicare. In 1986, $29 \%$ selected the option of cutting federal programs other than defense and Social Security-Medicare. (Text Table 8.)

## Raising More Revenues for Local Governments

When it comes to the painful task of raising more revenue for local governments, the public clearly prefers the use of charges for services$49 \%$ chose this option as the best way to raise more revenue. The second choice was the local sales tax, at $26 \%$. Both the local income tax (9\%) and the local property $\operatorname{tax}(7 \%)$ trailed far behind.

## Text Table 7

From which level of government do you feel you get the most for your money?

| Percent of U.S. Public |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: |
|  | Federal | State | Local | Don't Know |
|  | 32 | 22 | 33 | 13 |
| United States | 37 | 26 | 25 | 12 |
| Northeast | 28 | 22 | 39 | 11 |
| North-Central | 32 | 18 | 35 | 15 |
| South | 32 | 27 | 29 | 12 |
| West |  |  |  |  |

Detailed data appear in Appendix II, Table 1, p. 13..

## If the federal government decides to reduce spending to keep it more in line with revenues, which one of these would you prefer?

|  |  | Percent of U.S. Public |
| :--- | :---: | :---: |
|  | $\mathbf{1 9 8 6}$ | 1984 |
| Cut defense spending | 53 | 50 |
| Cut Social Security and Medicare | 2 | 3 |
| Cut all other programs | 29 | 31 |
| Cut all federal programs | $3^{*}$ | $2^{*}$ |
| Cut no federal programs | $4^{*}$ | $2^{*}$ |
| Don't know/No answer | 9 | 12 |
| *Volunteered |  |  |

Detailed data appear in Appendix II, Table 9, p. 26.

Text Table 9
Suppose your local government must raise more revenue, which of these do you think would be the best way to do it?

|  | Percent of U.S. Public |  |
| :--- | :---: | ---: |
|  | $\mathbf{1 9 8 6}$ | $\mathbf{1 9 8 1}$ |
| Local income tax | 9 | 7 |
| Local sales tax | 26 | 21 |
| Local property tax | 7 | 5 |
| Charges for specific services | 49 | 55 |
| Don't know | 9 | 12 |

Detailed data appear in Appendix II, Table 12, p. 30. A similar question asked in 1983 but with different options appears in Table 14, p. 32.

The ACIR poll had asked this question in 1981 with results which were quite similar except that support for raising more revenues by charging for specific services had been measurably higher in $1981-55 \%$ at that time, compared with $49 \%$ in 1986. There was also a small increase in support for the option of raising the local sales tax-from $21 \%$ in 1981 to $26 \%$ in 1986.

Examination of the regional figures shows a sharp drop in support in the Northeast for in-
creased charges for specific services even though the 1986 level of support still remains slightly higher than the United States average; in 1981, $68 \%$ of the respondents in the Northeast chose charges for specific services, but by 1986 it had dropped to $54 \%$. In 1986, the Northeast at $17 \%$ is below the U.S. average ( $26 \%$ ) in choosing the sales tax and considerably below both the NorthCentral and the Southern region (30\%). (Text Table 9.)

## THE POLL

This report presents the findings of a personal interview research survey conducted among a nationally representative sample of 1,004 men and women, 18 years of age or over, living in private households in the United States.
Interviewing for this survey was completed from May 17-18, 1986, by members of the Gallup Personal Omnibus national interviewing staff. All interviews were conducted in the homes of respondents.
To ensure the representativeness of the sample, data were weighted to take into account demographic variables. Therefore, the results may be projected to the total adult civilian population, 18 years of age or over, living in the United States.

## Introduction to Detailed Findings

The tables contained in this report present detailed findings of the various survey results. Percentages may not add to 100 because of rounding.
The following definitions are provided for some of the standard breakdowns by which the data are analyzed. Other breakdowns are self-explanatory.

Occupation refers to the occupation of the respondent. The types of positions included in each category are listed below. The fourth classification is retired persons.

## Professional/Manager/Owner

 Executives, Professionals, Technical and Kindred Workers, Managers, Officials, and Proprietors.White Collar, Sales, Clerical
Clerical, Office and Secretarial Workers, and Sales Agents and Workers.
Blue Collar
Semi-skilled, laborers, and service workers: Craftsmen, Foremen, Kindred Workers, Maintenance Repairmen, Carpenters, Plumbers and Electricians; Operatives and Kindred Workers, Apprentices, and As-
sembly Line Workers; Housekeepers in Private Households, Institutional and Public; Police, Security Guards; Beauticians and Barbers.
Metro size groupings are determined by the U.S. Bureau of the Census population figures for the metropolitan area. Nonmetro areas are those not in a metropolitan area, with populations under 50,000 . Central city areas have populations of 50,000 or more in a central city of a metropolitan area. Fringe areas have populations of 50,000 or more in metropolitan areas outside a central city.

The four geographic regions are defined as follows: Northeast-Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania; North Central-Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, lowa, Missouri, North Dakota, South Dakota, Nebraska, Kansas; SouthDelaware, Maryland, District of Columbia, Virginia, West Virginia, North Carolina, South Carolina, Georgia, Florida, Kentucky, Tennessee, Alabama, Mississippi, Arkansas, Louisiana, Oklahoma, Texas; West-Montana, Idaho, Wyoming, Colorado, New Mexico, Arizona, Utah, Nevada, Washington, Oregon, California, Hawaii, Alaska.
Income groups respondents by 1986 total household income before taxes.

Sampling tolerances for the survey are $\pm 4$ percentage points at the $95 \%$ level of confidence.

Further detail on the survey methods and sampling tolerances are available from ACIR.

## Previous Classifications and Results

Data for 1972-81 are presented in Appendix III, Detailed Results of 1972-81 Surveys (p. 41) of the 1984 public opinion volume (S-13) or 1983 (S-12). Copies may be requested from ACIR. Descriptions of classifications used in these years may be found in the volumes for the relevant years.
Tables for 1982-1986 are presented in Appendix /I of this report ( $\mathrm{S}-15$ ).

## Appendix I <br> QUESTIONS ASKED: <br> 1972-86

## QUESTIONS, 1972-85

Numbered Tables (1982-85) appear in Appendix II, Detailed Results: 1982-85 Surveys; Lettered Tables (1972-81) appear in Appendix III, Detailed Results: 1972-81 Surveys (S-12 or S-13).

# Table 8 <br> May 1978 <br> Which of These Statements Comes Closest to Your View <br> About Government Power Today? 

(in percent)

1. Federal government has too much power.
2. Federal government is using about the right amount of power for meeting today's needs.
3. Federal government should use its powers more vigorously to promote the well being of all segments of the people.
4. No Opinion.

If the Federal Government Decides to Reduce Spending to Keep it More in Line with Revenues, Which One of These Would You Prefer?
(in percent)

1. Cut defense spending.
2. Cut Social Security and Medicare.
3. Cut all federal programs other than defense and Social Security and Medicare. That would include federal programs such as farm supports, veterans benefits, welfare, education, and transportation aid.
4. All federal programs.
5. No federal programs.
6. Don't know/No answer.

## Which Statement Comes Closest To Your View On

 Single Parents That Receive Welfare?(in percent)

1. Single parents should be required to work in a government program in order to continue receiving payments.
2. Single parents should be required to work in a government program only if the children can be placed in affordable day care or are in school.
3. Single parents should not be required to work in a government program in order to continue receiving payments.
4. Don't know.

In the Next Fiscal Year, the Federal Government is Expected to Spend About 180 Billion Dollars More Than it Takes in. Which One of These Basic Ways of Reducing the Deficit Would You Most Prefer?
(in percent)

1. Mostly by cuts in spending.
2. Mostly by increases in taxes which would be earmarked for reducing the deficit.
3. About equally by cuts in spending and by tax increases.
4. Don't know/No answer.

## Suppose the Federal Government Must Raise Taxes Substantially, Which of These Do You Think Would be the Best Way to Do It?

(in percent)

1. Have a form of national sates tax on things other than food and similar necessities.
2. Raise individual income tax rates.
3. Raise money by reducing special tax treatment for capital gains and cutting tax deduction allowances for charitable contributions, state and local taxes, medical expenses, etc.
4. Don't know/No answer.

## If the Federal Income Tax Collections Must be Increased, Which Way is the Best?

(in percent)

1. Raise individual income tax rates.
2. Cut back on current tax exemptions such as social security, pensions, interest on municipal bonds, etc.
3. Cut back on all itemized deductions, such as those for state and local taxes, interest paid on mortgages and consumer loans, and charitable contributions.
4. Don't know.

## Which One of the Changes Would Be the Single Most Important Change That Would Make the Nation's Tax System More Fair?

(in percent)

1. Make the upper income taxpayers pay more.
2. Reduce taxes on lower income taxpayers.
3. Make business firms pay more even if it reduces the number of jobs.
4. Leave the tax system alone-it is about as fair as you are ever going to get.

The reports of the Advisory Commission on Intergovernmental Relations are released in three series: the " $A$ " series denotes reports containing Commission recommendations; the " $M$ " series contains information reports; and, the "S" series identifies reports based on public opinion surveys.

## WHAT IS ACIR?

The Advisory Commission on Intergovernmental Relations (ACIR) was created by the Congress in 1959 to monitor the operation of the American federal system and to recommend improvements. ACIR is a permanent national bipartisan body representing the executive and legislative branches of Federal, state, and local government and the public.

The Commission is composed of 26 members--nine representing the Federal government, and three representing the public. The President appoints 20 -three private citizens and three Federal executive officials directly and four governors, three state legislators, four mayors, and three elected county officials from slates nominated by the National Governors' Association, the Council of State Governments, the National League of Cities/U.S. Conference of Mayors, and the National Association of Counties. The three Senators are chosen by the President of the Senate and the three Congressmen by the Speaker of the House.

Each Commission members serves a two year term and may be reappointed.
As a continuing body, the Commission approaches its work by addressing itself to specific issues and problems, the resolution of which would produce improved cooperation among the levels of government and more effective functioning of the federal system. In addition to dealing with the all important functional and structural relationships among the various governments, the Commission has also extensively studied critical stresses currently being placed on traditional governmental taxing practices. One of the long range efforts of the Commission has been to seek ways to improve Federal, state, and local governmental taxing practices and policies to achieve equitable allocation of resources, increased efficiency in collection and administration and reduced compliance burdens upon the taxpayers.

Studies undertaken by the Commission have dealt with subjects as diverse as transportation and as specific as state taxation of out-of-state depositories; as wide ranging as substate regionalism to the more specialized issue of local revenue diversification. In selecting items for the work program, the Commission considers the relative importance and urgency of the problem, its manageability from the point of view of finances and staff available to ACIR and the extent to which the Commission can make a fruitful contribution toward the solution of the problem.

After selecting specific intergovernmental issues for investigation, ACIR follows a multistep procedure that assures review and comment by representatives of all points of view, all affected levels of government, technical experts, and interested groups. The Commission then debates each issue and formulates its policy position. Commission findings and recommendations are published and draft bills and executive orders developed to assist in implementing ACIR policies.
