## A COMMISSION SURVEY

## HIB

FOREWORD As part of its continuing research on fiscal federalism, the Advisory Commission on Intergovernmental Relations believes it is useful to determine public attitudes on major intergovernmental fiscal issues. Each year since 1972, the Commission has contracted with Opinion Research Corporation of Princeton, New Jersey, to gauge public opinion as to tax instruments, Federal aid, and effectiveness of the levels of government. This publication presents both the current and cumulative record of these surveys.

This study was prepared by Will Myers, senior analyst, and John Shannon, assistant director, of the Commission's public finance staff, and Timothy Conlan of the government structure and functions staff. All interpretations of the data are those of the Commission's staff.

## The 1978 Survey

## HIGHLIGHTS

The seventh annual ACIR-sponsored poll of public attitudes on government and taxes was taken just before California voters strongly endorsed Proposition 13 on June 6, 1978. This poll,
based on personal interviews with 2,110 adults, was conducted by Opinion Research Corporation of Princeton during the period May 11 through May 30, 1978. It produced five major findings.

First, nationally, there was no dramatic upsurge in antiproperty tax feeling during the last year. As for the last five years, the local property tax and the federal income tax have run almost neck and neck for the booby prize-as the worst major tax
in the estimate of the nation's taxpayers (Table 1). In 1978, as in 1977, the poll showed that antiproperty tax sentiment was most pronounced in the west (Table 1a).

## Table 1

## Which Do You Think is the Worst TaxThat is, the Least Fair?

|  | Percent of Total U.S. Public |  |  |  |  |

| Local Property Tax | 32 | 27 | 35 | 27 | 44 |
| Don't Know/No Answer | 10 | 9 | 7 | 17 | 5 |

Second, the country is polarized as to whether the federal government should play a stronger or weaker role in public affairs. This year the ACIR revived a question first asked by Free and Cantril in 1964 to ascertain the public attitude on the appropriateness of the use of power by the federal government. ${ }^{1}$ As clearly illustrated in Table 2, there has been significantly more polarization since 1964 when there was roughly a three-way split in views.

Consistent with today's conventional wisdom, the group of people believing that the federal government has too much power has grown the
most since 1964. Their numbers are up 12 percentage points, from $26 \%$ to $38 \%$. Contrary to the conventional wisdom, however, the number of people believing that the federal government should be more active has not fallen. It has risen 5 percentage points, from $31 \%$ to $36 \%$. Most significantly, the number of people believing that the federal government exercises just the right amount of power has been reduced to half, from $36 \%$ to $18 \%$. These changes clearly underscore growing polarization in the body politic.

Table 2

## Which One of These Statements Comes Closest to Your Own View About Governmental Power Today?

|  | Percent of Total U.S. Public |  |
| :--- | :---: | :---: |
|  | $\mathbf{1 9 7 8}$ | $\mathbf{1 9 6 4}$ |
| The Federal Government Has Too Much Power | $38 \%$ | $26 \%$ |
| The Federal Government is Now Using Just About the Right |  |  |
| Amount of Power for Meeting Today's Needs | 18 | 36 |
| The Federal Government Should Use Its Powers More Vigorously <br> to Promote the Well-Being of All Segments of the People | 36 | 31 |
| Don't Know/No Answer | 8 | 7 |

For additional detail see page 10.
${ }^{1}$ Lloyd Free and Hadley Cantril, Political Beliefs of Americans, New York, NY, Simon and Schuster, 1968, p. 218.

Third, there is also no consensus on state and local use of power. It is interesting to note, however, that state and local governments received
the fewest bad marks in the south, the region with the least amount of local government fragmentation.

Table 3

# Which One of These Three Statements About The Ability of State and Local Governments to Deal With Today's Problems Comes Closest to Your View? 

|  | Total U.S. <br> Public | Percent of <br> North- <br> east | North- <br> Central | South | West |
| :--- | :---: | :---: | :---: | :---: | :---: |

| Too Fragmented and Disorganized <br> to be Effective | 22 | 19 | 21 | 22 | 26 |
| State and Local Government Does <br> an Adequate Job in Dealing With <br> Today's Problems |  |  |  |  |  |
| State and Local Government Should <br> be Given More Power and Authority <br> Because it is Closest to the <br> People | 33 | 28 | 36 | 34 | 32 |
| Don't Know/No Answer <br> For additional detail see page 12. | 10 | 9 | 7 | 14 | 7 |

Fourth, the country continues to be split pretty much down the middle on the issue of special federal aid to the central cities. As might be expected, the greatest support for federal aid is found
in the northeast region of the country-the area where central cities face the most acute problems (Table 4).

## Table 4

## Many of Our Major Central Cities are Experiencing Financial Difficulty. Would You Favor or Oppose Special Federal Aid for These Central Cities?

|  | Percent of Total U.S. Public |  |  | Percent of Respondents by Region (May 1978) |  |  |  |

| Favor | 47\% | 43\% | 48\% | 60\% | 41\% | 43\% | 45\% |
| Oppose | 45 | 44 | 40 | 32 | 52 | 46 | 47 |
| No Opinion | 9 | 12 | 12 | 7 | 7 | 11 | 9 |
| For additional detail see pages 14 and 40. |  |  |  |  |  |  |  |

Fifth, a significant shift in the public estimate of the relative effectiveness of the three levels of government appears to have taken place just after the passage of Proposition 13. Just prior to the adoption of Proposition 13, the federal govern-
ment came out first, local government second, and state governments third when respondents to the ACIR-sponsored poll were asked to select the most effective level of government (Table 5).

## Table 5

## From Which Level of Government Do You Feel You Get the Most for Your Money-Federal, State, or Local?

Percent of U.S. Public

|  | May <br> $\mathbf{1 9 7 8}$ | May <br> $\mathbf{1 9 7 7}$ | March <br> $\mathbf{1 9 7 6}$ | May <br> $\mathbf{1 9 7 5}$ | April <br> $\mathbf{1 9 7 4}$ | May <br> $\mathbf{1 9 7 3}$ | March |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| 1972 |  |  |  |  |  |  |  |

*Opinion Research Corporation-2,110 adults, personal interviews, May 11-30, 1978. ORC also conducted the earlier polls for ACIR.

For additional detail see pages 16 and 22.

In sharp contrast, the federal government runs a poor third in three polls taken just a few weeks
later-after the "California tax revolt."

The Gallup Poll for Newsweek
June 7-8, 1978
Telephone Interviews-750 Adults

Which level of government gives you the most value for your tax dollars?

| Local Government | State Government | Federal Government | Can't Say |
| :---: | :---: | :---: | :---: |
| $35 \%$ | $23 \%$ | $22 \%$ | $20 \%$ |

## NBC-AP Poll

## June 12-13, 1978

Telephone Interviews-1,600 Adults

Do you feel that you get your money's worth from the tax dollars you pay to the federal government [state government, local government, local schools], or don't you think you get your money's worth?

|  | Yes. Get <br> Money's Worth | No. Don't Get <br> Money's Worth | Not <br> Sure | Total |
| :--- | :---: | :---: | :---: | :---: |
| Federal | $21 \%$ | $73 \%$ | $6 \%$ | $100 \%$ |
| State | 30 | 63 | 7 | 100 |
| Local Government | 39 | 53 | 8 | 100 |
| Local Schools | 45 | 44 | 11 | 100 |

## CBS News-New York Times Poll <br> June 19-23, 1978

Telephone Interviews-1,527 Adults

Which level of government do you think wastes the biggest part of its budget-the federal government, the state government, or local governments?

| Federal | $62 \%$ | None/All Equal | $13 \%$ |
| :--- | :--- | :--- | :---: |
| State | 12 | No Opinion | 8 |

Assuming the validity of all four surveys, there are at least two sets of factors that may account for the wide variations in the results of the polls taken just before and after passage of Proposition 13.

1. Technical factors-The most obvious of these are differences in the wording and the sequence of the survey questions.
2. Long-term Trends Versus Short-Term

Fluctuations-The ACIR findings over the last seven years may well be the best indicator of sustained public opinion on this subject. In contrast, the post-Jarvis polls may have captured a temporary, albeit significant, swing in public opinion-a shift that could have been caused by the massive media effort to discover the implications of the California tax revolt for the entire federal system.

## THE POLL

This report presents the findings of a personal interview research survey conducted among a probability sample of 2,110 men and women, 18 years of age or over, living in private households in the continental United States.

Interviewing for this Caravan survey was completed during the period May 11 through May 30, 1977, by members of the Opinion Research Corporation national interviewing staff. All interviews were conducted in the homes of respondents, using a thoroughly pretested questionnaire.

The most advanced probability sampling techniques were employed in the selection of interviewing households and random selection of a designated respondent within the household. One callback was required in all cases where the originally designated respondent was not available at the time of the initial call to that housing unit. Only one interview was conducted per household. To further ensure the representativeness of the sample, data were subject to ORC's weighting program, which takes into account probability of being at home and six different demographic variables. Therefore, the results may be projected to the total U.S. population of men and women, 18 years of age or over.

## Introduction to Detailed Findings

The tables contained in this report present detailed findings of the survey results. Where percentages add to more than 100, it is because of multiple answers.

The following definitions are provided for some of the standard sidebreaks by which the data are analyzed. Other sidebreaks are self-explanatory.

Occupation refers to the occupation of the chief wage earner in the family. The 1978 questionnaire uses the Hollingshead classifications shown at the left below; the sidebreak collapses them as shown at the right and adds a retired classification.

The city size groups all respondents into one of three major categories - rural, suburb, or city and is based on interviewer observation of the respondent's location in terms of rural, suburb and city, and the age and type of dwelling.

City dwellers are divided into two groups those living in single family versus multi-family dwellings.

The four geographic regions are comprised as follows: Northeast - Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecti-

Hollingshead Classification

Higher Executives, Large Business Owners, Major Professionals

Business Manager, Medium Business
Owners, Lesser Professionals
Administrative, Small Business
Owners, Semiprofessionals
Clerical/Sales Workers, Technicians, Little Business Owners
Skilled Manual Employees
Machine Operators, Semiskilled Employees

Unskilled Employees

Semi/Unskilled

## Retired

cut, New York, New Jersey, Pennsylvania; North Central - Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, lowa, Missouri, North Dakota, South Dakota, Nebraska, Kansas; South - Delaware, Maryland, District of Columbia, Virginia, West Virginia, North Carolina, South Carolina, Georgia, Florida, Kentucky, Tennessee, Alabama, Mississippi, Arkansas, Louisiana, Oklahoma, Texas; West - Montana, Idaho, Wyoming, Colorado, New Mexico, Arizona, Utah, Nevada, Washington, Oregon, California.

The Nielsen Market Size groups respondents by A.C. Nielsen Company market size:

A - All counties comprising the 25 largest metropolitan areas;
B - All other counties having a population of 150,000 or more, or that form part of a metropolitan area having a total population of 150,000 or more;
C - All other counties having a population of 35,000 or more, or forming part of a metropolitan area having a population of 35,000 or more; and
D - All remaining counties in the country.
Income groups respondents by total family income in 1977, before taxes.

## APPENDIX TABLE G

Here are Some of the Reasons that People Give Us for Feeling that the Property Tax is Not a Good Tax. Which one of These Do You Feel is the Most Important Reason for Dissatisfaction With the Property Tax?

1. It is hardest on low income families.
(in percent)
2. It is based on estimates of home value that are not always fair.
3. Reassessments may sometimes result in a shocking tax bill increase.
4. It discourages homeowning.
5. It taxes any increase in the value of a home over the original purchase price, even though that increase is only on paper and not in the homeowner's hands unless he sells the house.
6. Property taxes have been going up faster than other taxes.
7. No opinion.
8. Don't agree that property tax is not a good tax.

## APPENDIX TABLE H

Here are Three Statements About Taxes. Which of the Statements Agrees Most with Your Own Thinking?
(in percent)

1. The Federal government should start a value added tax (a form of national sales tax) and use the money to help reduce local property taxes.
2. The Federal goverment should not start a value added tax (a form of national sales tax) but should raise individual income taxes to help reduce local property taxes.
3. The Federal government should take neither of these actions to help reduce local property taxes.
4. Don't know.

## APPENDIX TABLE I

A. Suppose the Federal Government Must Raise Taxes Substantially, Which of These do You Think Would be the Best Way to Do It?
(in percent)

1. Collect a value added tax (VAT), a form of national sales tax on things other than food and similar necessities.
2. Raise individual income tax rates.
3. Raise money by reducing special tax treatment for capital gains and cutting tax deduction allowances for charitable contributions, state and local taxes, medical expenses, etc.
4. Don't know.

The reports of the Advisory Commission on Intergovernmental Relations are released in three series: the " A " series denotes reports containing Commission recommendations; the " M " series contains information reports; and the " S " series identifies reports based on public opinion surveys. All Commission reports are printed by, and available from, the U.S. Government Printing Office, Washington, DC.

## What ACIR?

The Advisory Commission on Intergovernmental Relations (ACIR) was created by the Congress in 1959 to monitor the operation of the American federal system and to recommend improvements. ACIR is a permanent national bipartisan body representing the executive and legislative branches of Federal, state, and local government and the public.
The Commission is composed of 26 members-nine representing the Federal government, 14 representing state and local government, and three representing the public. The President appoints 20 -three private citizens and three Federal executive officials directly and four governors, three state legislators, four mayors, and three elected county officials from slates nominated by the National Governors' Conference, the Council of State Governments, the National League of Cities/U.S. Conference of Mayors, and the National Association of Counties. The three Senators are chosen by the President of the Senate and the three Congressmen by the Speaker of the House.
Each Commission member serves a two year term and may be reappointed.
As a continuing body, the Commission approaches its work by addressing itself to specific issues and problems, the resolution of which would produce improved
cooperation among the levels of government and more effective functioning of the federal system. In addition to dealing with the all important functional and structural relationships among the various governments, the Commission has also extensively studied critical stresses currently being placed on traditional governmental taxing practices. One of the long range efforts of the Commission has been to seek ways to improve Federal, state, and local governmental taxing practices and policies to achieve equitable allocation of resources, increased efficiency in collection and administration, and reduced compliance burdens upon the taxpayers.
Studies undertaken by the Commission have dealt with subjects as diverse as transportation and as specific as state taxation of out-of-state depositories; as wide ranging as substate regionalism to the more specialized issue of local revenue diversification. In selecting items for the work program, the Commission considers the relative importance and urgency of the problem, its manageability from the point of view of finances and staff available to ACIR and the extent to which the Commission can make a fruitful contribution toward the solution of the problem.
After selecting specific intergovernmental issues for investigation, ACIR follows a multistep procedure that assures review and comment by representatives of all points of view, all affected levels of government, technical experts, and interested groups. The Commission then debates each issue and formulates its policy position. Commission findings and recommendations are published and draft bills and executive orders developed to assist in implementing ACIR policies.
